

POWER SKILLS

Power skills (or soft skills) are durable skills that improve workers' ability to communicate, collaborate, innovate, and lead from their current position regardless of their role within the organization.

Invest in your employees' professional growth and development!

HOW IT WORKS

For an investment of only \$850 per bundle - or \$199 per individual class - you can register your employees for this series by taking advantage of one of these options:

- Five seats in any of the classes for different employees based on individual needs
- Five classes for one employee
- Any class individually
